199 video door entry system in a single kit!

All in a single Kit!

A digital video door entry installation only requires one KIT DIRECT 199 and as many monitors as there are homes in the building.

Elegance and robustness of the most modern panel.

The kit solution for buildings of up to 199 houses.

Each Kit includes:

- VDS Direct panel with keypad to call the apartments.
- A directory-panel to indicate the call codes for each apartments, user instructions, building name and address, etc.
- Two flush boxes and a set of joining bolts.
- Graphic material for names and house codes.
- One power supply (18Vdc ref.4830) to serve 40 homes with monitor (or 80 with telephone).
- One Vac power supply for the electric lock (ref.4800).

Another power supply must be added (ref.4830) for every 40 additional monitors or 80 telephones.

Panel measurements (S5): 130(W)x246(H)mm
Flush-box (S5): 115(W)x233(H)x45(D)mm
